JAPAN MAY ENTER CONTRO-VERSY IN INTEREST PEACE IN FAR EAST AREA

(By The Associated Press.)
Possibility of Japanese
representation in the interest of peace in the Orient developed today as the Russian - Chinese crisis grew

more tense. With the breaking of diplomatic relations by Russia, numerous troop movements by Russians and Chinese along the Siberian-Manchurian frontier were reported.

General Budenny, noted Russian general, was reported to have been called from vacation. His program was understood to include the concentration of Russian forces including powerful air squadrons, cavalry and tank divisions on the frontier in addition to reinforce-ing the Lenigrad and Moscow gar-

Unconfirmed dispatches in the Chinese press stated Russian forces had crossed the Amur river on the frontier but were repulsed.

Despite the far reaching military indvements, there was still insistence in diplomatic quarters that war would be avoided, aithough the dayer of horder incidents was the danger of border incidents was clearly recognized.

Mexican Youth Forced Dig Own Grave by Captor

MEXICO CITY, July 18.—(P)—Newspaper dispatches from Colima today told how a 14-year-old Mexican boy, Adolfo Villaneva, was forced to dig his own grave before he was executed by Manuel Marmolejo, bandit chieftain. Marmolejo's band had captured the boy several weeks ago but he had escaped. He was taken again a few days ago and carried to the mountain retreat of the bandits where the leader ordered him to dig a grave, telling him it was for a man sentenced to death.

As the task was finished the bandit said to the youth:

"The grave you have dug is your own, You will not escape again."

Marmalejo thereupon drew his pistol and shot the boy, the body falling back into the grave.

Ever since the head of the family died three years ago, Mrs. May Mulligan, 42, has been stumbling along a rough road where every sign pointed to poverty and misery. She has three children, all under 14 years old.

She thought if she came to Chicago and could find her cousin, Clyde Wilber, she might get help He once had told her he would be glad to give aid if ever she needed it.

The Salvation Army was notified. It provided hotel accommodations. Policemen secretly tucked some currency in the frayed Mulligan handbag.

The Mulligans from Houston ate a square meal last night—meat, for a change, potatoes, vegetables, warm rolls, and ice cream. The little Mulligans liked the ice cream best; but Mrs. Mulligan's windreddened face glowed to see her youngsters tucking the meat and potatoes under their belts, for their bodies needed nourishing badly.

Something was sure to turn up for the Mulligans today. A good night's sleep, after three years of worry-filled nights, a good dinner and breakfast after three years of scant rations, somehow made the world look much brighter. Something was sure to turn up today.

STATE AND DEFENSE OC-**CUPY LESS THAN FULL DAY** WITH WITNESSES

Testimony in the trial of Loyd Davidson for the alleged slaying of his father, W. T. Davidson, was closed in district court Thursday afternoon at 2:45 o'clock when the defense rested after putting several witnesses on the stand to prove that the defendant was not of norman mentality. The state declined to put any rebuttal testimony on and closed the case. Distrct Judge Hawkins Scarborough announced that it would take an hour to prepare his charge and that the arguments of the attorneys would likely be started Thursday afternoon. AMENDMENTS STILL SHOWING BIG LEAD **AS RETURNS ARRIVE**

DALLAS, July 18.—(P)—The rural Texas vote, though generally unfavorable to the two constitutional amendments voted on Tuesday, nad failed today to cut down the affirmative lead piled up by the cities sufficiently to defeat the chances.

Although returns were by no

means complete, the amendment proposing increasing the supreme court membership from three to nine and abolishing the six-membered commission of appeals had more than 20,000 counted ballots in its favor with more than 10,000 in its favor with more than 10,000 against. The other amendment, that to increase the governor's ralary from \$4,000 to \$10,000 annually, had a similar lead.

The official result will not be announced from Austin for several days, but an example of the official viewpoint was seen in the suggestion of Rep. John E. Davis of Dallas county that the crurent legislature immediately pass enabling legislation for the amendments.

Aviation will be recognized within a short time as the safest and most economical means of travel, the speaker declared, pointing out that the cost of carrying a load of six passengers in a plane to a given point would be far less than steam travel for the same party.

He paid tribute to the farsight admess of the founders of his corporation and declared their engineering ability was recognized in eastern, aviation circles. The principal trouble with aviation in the south he said is the old attitude that the people of this section of the country cannot develop an industry for themselves but must wait for outside capital. The southerners have proven the ploneers in practically every worthwhile invention produced in years he declared, and stated he believed they would continue to lead.

In closing, he complimented Corsicans on having given Texas aviation one of its best loved and most capable pilots, Charles Pedley; and he also congratulated the city on having such a man as pilot Harold J. FARM BOARD GETS DOWN TO WORK FOR RELIEF AGRICULTURE

CHAIRMAN LEGGE MAKES ONE PROMISE, WORK LONG AND HARD, FOR RELIEF

WASHINGTON, July 16. —(P)—Burdened by only one promise from its cautious-tongued chairfrom its cautious-tongued chairman, Alexander H. Legge of Chicago, the federal farm board has engaged today at the task of ful-filling his pledge "to work long and hard."

hard."
A spokesman for the wheat growers was still missing from its membership, owing to the difficulty President Hoover has encountered in finding reasonably

countered in finding reasonably unified support for such an appointe. But the urgency of the wheat problem apparently has been alleviated by the sharp rise in prices, which Legge described as "a break of luck at the start."

Confronted with a number of requests for aid from representatives of various commodities besides wheat out of the \$150,000,000 additional authorized by congress, the seven men who have given up their private connection in business and agriculture to attack the "multitude of agricultural problems" lost agriculture to attack the muta-tude of agricultural problems" lost no time in beginning with Secretary Hyde as ex-officio colleague, the "long and hard" work before them. They "hope," as Legge cautiously phrased it, to get something done which will be of benefit to the pro-

which will be of benefit to the producers of this year's crops.

To Strengthen Organization.
Much of the board's work is to be directed toward the strengthening and building up of co-operative and other agricultural organizations already in existence. One of the first major tasks looking to that end will be the selection of advisory councils for different commodities. These agencies are to preside over stabilization corporations to be set up by producers through their co-operative marketing organizations and financed out of the board's \$500,000,000 revolving fund.

Another big task which the mem-bers confronted within the first 24 hours of the board's existence was hours of the board's existence was
the beginning of a study to acquaint themselves with the full extent of their authority under the
farm relief law which gives them
their authority. Described by
President Hoover as "the representatives of organized agriculture itself," they were invested by him
"with responsibility, authority and
resources such as have never before been conferred by our governresources such as laye here to be fore been conferred by our government in assistance to any industry," and they saw in the very breadth of that grant of power a requirement to study its extent and the the total conference of the study its extent and the study its extent and

NAVARRO COUNTY'S

Local showers that amounted to salmost good rains in practically every section of the county recently supplied enough moisture to keep cotton growing and fruiting for some time as cotton is a hot weather plant.

In some sections of the county the stalk is not as large as usual but it is well fruited and there has been less than the normal amount of shedding. Lack of excessive shedding may be attributed to several causes but chiefly to the fact that there have been no blistering hot winds, yet it has been hot enough to check insect damage. The acreage is about on an average with the past few years. In some of the lowlands cotton was not re-planted and some was lost from other causes, but that is no more than happens almost every year.

The workers, however, continued taking away the debris to guard against a chance that any one was entombed in the wreckge.

Several persons were injured, three seriously, and property damage estimated at \$175,000 was caused by the collapse of two buildings housing the Bullock Shoe Company and the Pizitz-Smolian department store.

Between 75 and 100 persons were in the buildings when the walls suckled and collapsed yesterday, but enough warning was given that the majority of them were able to reach safety.

The seriously injured were Geo. DeGruchy, and two negroes.

Investigation has been started into the cause of the collapse.

Buying and Selling Of Rotten Eggs Now Receiving Attention

A warning that the state and federal authorities are vigorously enforcing the statutes against the buying and selling of rotten eggs has been received by A. B. Walker & Son, local poultry dealers, from the state department of health.

The following cautions and directions are given in the circular:

Candle all eggs before buying or selling and eliminate danger of prosecution. Produce only infertile eggs in hot months. Keep nests clean and gather eggs twice a day. Keep eggs protected from sun in delivering to market. Keep eggs in cool, dry room or cellar.

Market the eggs at least twice a week or oftener in the hot months.

At the meeting, E. C. Woodard stated that a meeting of all highway engineers interested in the construction of this highway would be held here Monday morning and a tour of inspection of the proposed route will be made. After the proposed route is approved, the committee was advised to at once to secure immediate construction of the road.

In addition to the Corsicana-Pal-estine highway, other roads now un-der construction were discussed, with considerable time being spent on the progress of surveying the route of Highway 14 from Richland

The departmental bill appropriated \$10,432,983 of the general revenue and the claims and accounts \$476,049.

All appropriations aggregated \$47,792,936, a net decrease of more \$47,792,936, a net decrease of more than \$3,000,000 under the \$51,161,-614 of money measures vetoed by Gov. Moody when he called the

third session.

Fallure of the conference committee on the departmental bill to include \$250,000 for purchase of land surrounding the Alamo threatland surrounding the Alamo threatened to send the measure back for
further consideration in the committee room. Informed, however,
the house had accepted the report
by a top heavy vote and fearful
lest refusal of the committee's recommendations might cause another
session, the senate adopted the bill.
At the request of Senator Tom
Pollard finance committee chair-Pollard, finance committee chair Pollerd, finance committee chairman, the Alamo appropriation was reintroduced by Senator W. A. Williamson of San Antonio in the form of a separate bill. Less than two minutes after it had been offered on the floor, the measure was finally passed by a vote of 22 to 1.

Miller for Alamo.

Lieut. Gov. Barry Miller himself took the floor urging an appropriation for acquiring land around the historical building.

Rejection of the departmental report also was urged by Senators Thomas B. Love of Dallas and W. D. McFarlane of Graham. Senator Love opposed the compromise measure because it did not contain an appropriation of \$500,000 to supplement the Confederate pension fund and Senator McFarlane-voiced opposition because the bill, he declared, contained wholesale galary increase.

woiced opposition because the billy he declared, contained wholesale salary increase.

Representative A. B. Tarwater of Plainview protested acceptance of the departmental bill because 18 division highway engineers had obtained increases in salary from \$3,600 to \$4,200 annually, and also on account of nclusion of a \$1,500 annual item for a statistican in the adjutant general's department. He said this would go to a salary for Carl Estes of Tyler, who had been paid the amount heretofore for several years. He contended that it was in the nature of a pension for Estes, who had been hurt while serving in the National Guard.

Representative John F. Wallace of Teague, chairman of the appropriations committee, said the appropriation had been authorized without designating any person to

thout designating any person to ceive it.

The vote to accept the bill was so to 26.

Ready to Quit.

With appropriations out of the way members of both houses were hamping at the bit, anxious to go home. Sine Die resolutions were discussed informally.

It was agreed that in order not to endanger the land leasing legislation recommended by Governor Moody in his message last Saturday, it would be necessary for the legislature to remain at least technically in session until Thursday to comply with the constitutional provision that a bill must be introduced at least three days before final adjournment. The land bill was introduced and passed the senate yesterday.

was introduced and passed the senate yesterday.

There was some speculation as to the attitude of Gov. Moody toward the appropriation bills. Although he had said he would not yeto all money bills in the event they came within \$48,000,000, the estimated available general revenue for the biennium with a maximum 35 per cent ad valorem levy tax, he gave it as his opinion the total sould not exceed \$45,000,000.

HALFWAY REGORD MARK REACHED BY ST. LOUIS FLYERS

ST. LOUIS, July 18.-(F)-Two St.

ST. LOUIS, July 18.—(I)—Two St. Louis airplanes in an "endurance derby" continued in the air today, the "St. Louis Robin" starting its sixth day and the "Missouri Robin" its second day aloft.

The "St. Louis Robin" had been up 120 hours at 7:17 a. m., and approached the halfway mark of the record endurance flight recently made by L. W. Mendell and R. B. Reinhart, California aviators. The pilots, Dale Jackson and Forest O'Brine, appeared to be in good spirits as they took on a new supply of gasoline and breakfast from the refueling plane.

The "Missouri Robin," a sister ship that went aloft yesterday, also

a. m., today, Van Lear Leary and William Currey Sanders, piloting the Ryan monoplane, "KWKH," in an effort to beat the endurance flight record, began their second day in the air, confident they would succeed in their undertakings.
The third refueling contact was at 5:20 a. m., when 100 gallons of gasoline, a supply of oil, and food and water were passed from a refueling plane.
